What is The Liberal Gun Club?

Mission Statement

The mission of The Liberal Gun Club is to provide a Pro-Second Amendment voice for left-of-center gun owners in the national conversation on firearms.

Liberal Gun Club Facts

- The Liberal Gun Club is a 501c4 non-profit, volunteer run organization.
- The Liberal Gun Club operates throughout the United States with Chapters on a state or regional level. Paid membership entitles you to both national and regional memberships.
- The Liberal Gun Club offers training in 3 Classes. Introduction to Range Safety, Firearms Familiarization, and Introduction to Defensive Pistol. We have certified instructors in 13 states and can bring a class to your area upon request.

What We Stand For

- We favor violence prevention; stronger mental health care, addressing poverty, homelessness, and unemployment.
- Removing the root causes of violence rather than focusing on prohibiting or restricting one tool. IE: so-called “assault weapons bans.”
- We favor enforcement of existing regulations over the creation of new regulatory schemes.
- We favor increased, accurate reporting by states for NICS reliability.
- An appeal process for items inaccurately or inappropriately persisted into the NICS records of individuals
- We are in favor of mandatory safety testing as a condition of licensing for issuing CCW permits. Demonstrating proficiency is less expensive for the applicant than mandatory training, we believe this mitigates any arbitrary financial barriers to a permitting process.
- We favor minimum standards based national CCW reciprocity. In our opinion, this preserves states rights and doesn't impose standard-less permits on states that don't want them.
- We believe that every single person is entitled to every single one of their civil rights, including those guaranteed by the Second Amendment.

What We Do

We are the preeminent left-leaning public voice in support of the Second Amendment in the United States. As part of that, we engage in political advocacy at both the state and national level and endorse liberal candidates who support the Second Amendment.

In support of our mission, the Liberal Gun Club encourages new participants in the shooting sports and provides firearms safety and shooting instruction programs.

For both new and experienced gun owners, we provide a forum for civil discourse on all aspects of firearms ownership, and seek specifically to provide a voice to gun owners who do not subscribe to the partisan rhetoric surrounding firearm ownership and use.

We also provide numerous social and training events for gun owners; our annual National Meeting and local chapter social and educational events throughout the year.

We have created formal safety programs to promote firearm safety, marksmanship and responsible ownership.

We encourage membership and participation regardless of age, gender, sexual orientation, race or political affiliation.
