

About Us

The mission of the Liberal Gun Club is to provide a pro-Second Amendment voice for left-of-center gun owners in the national conversation on firearms.

To achieve our mission, we encourage new participants in the shooting sports and provide firearms safety and shooting instruction programs. We provide a forum for civil discourse on all aspects of firearms ownership regardless of political affiliation or experience level. We also provide social and training events for gun owners through our annual National Meeting and numerous local chapter events.

We strongly support root cause mitigation to alleviate the social ills that lead to violence and loss of life, rather than ineffectual and unconstitutional bans. You can learn more about membership and our numerous positions at:
